

# Full PCB Manufacturing

- Prototype Assembly
- Short-run Assembly
- PCB Fabrication
- Components Procurement

[Quote Now](#)

## Standard PCBs

Normal FR4 and complex PCBs with full features such as High Frequency PCBs, HDI PCBs, high TG PCBs, thick copper PCBs, and halogen-free PCBs.

[Read more...](#)

Layers: 1-36 Layers

Quantity: 1-5 Million Pcs

Quality: IPC 2 / IPC 3

Build time: 1day-4weeks

Material: Fr4, Rogers, Teflon..

[Quote Now](#)

## Flex PCB

RayMing manufactures high reliability Flex and Rigid-Flex circuits on most substrates. We specialize in single and double-sided flex circuits as well as multilayer flex PCB

[Read more...](#)

Layers: 1-8 Layers

Quantity: 1-1 Million Pcs

Quality: IPC 2/IPC 3

Build time: 2days-5weeks

Material: Polyimide

[Quote Now](#)

## Metal Core PCB

MCPCB, Metal Core PCB, thermal PCB - whichever name you prefer, they are all boards which use a base metal material as the heat spreader portion of the circuit board.

[Read more...](#)

Layers: 1-6 Layers

Quantity: 1-1 Million Pcs

Quality: IPC 2/IPC 3

Build time: 2days-6weeks

Material: Aluminum, Copper

[Quote Now](#)

## PCB Assembly Services

RayMing is capable of providing full turn-key and partial turn-key printed circuit board assembly services. Free DFM checking and Custom Testing

[Read more...](#)

Layers: SMT, DIP, FBGA

Quantity: 1-1 Million Pcs

Quality: IPC Class III

Build time: 3days-2weeks

Material: LF soldering

### PCB Manufacturing

#### PCB Manufacturing Services

Our flexible PCB products put you in command of your project. RayMing's PCB Manufacturing capabilities provide you with all high quality printed circuit boards - just specify your board order as you need it, and we'll tell you how to optimize your order for the best results. After your first contact, we will assign one customer support to serve you by 7x24. Any questions, you can get the

All our team is defending your products, Deliver the highest quality Printed circuit boards to you . RayMing offers full-service printed circuit board manufacturing with two easy options: Standard & Custom Spec. All files receive a full CAM review and all boards are inspected to IPC-A600 Class 2 or higher standards. Choosing between our two options will depend on your PCB design requirements and specifications. Compare price & turn-times by sending email to [sales@raypcb.com](mailto:sales@raypcb.com) .
